

GRAVEL / ALL-ROAD

DRIFTER GRAVEL BIKE

Fast on pavement. Composed beyond it.

PRODUCT HIGHLIGHTS

- 1 Stable all-road geometry with generous tire clearance
- 2 Flared drop bar for confident mixed-surface control
- 3 Wide-range 1x drivetrain and hydraulic disc braking
- 4 Tubeless-ready tan-wall gravel tires and cargo mounts

TECHNICAL SPECIFICATIONS

FRAME	Lightweight alloy all-road concept
FORK	Full-carbon fork with cargo mounts
DRIVETRAIN	1x11 wide-range gravel concept
BRAKES	Flat-mount hydraulic disc concept
WHEELS	700C x 42 mm tubeless-ready
CONCEPT WEIGHT	Approx. 10.4 kg

COMPATIBILITY / FITMENT

All-road and gravel concept. Final frame sizing, tire clearance, cargo limits, gearing, rotor configuration, and tubeless compatibility require engineering validation.

MOCKUP SPECIFICATION — values are preliminary concept targets. Final dimensions, weights, materials, compliance, and compatibility require engineering validation.
