

TRAIL / ALL-MOUNTAIN

SUMMIT TRAIL 29 MTB

Confident suspension. Technical-trail capability.

PRODUCT HIGHLIGHTS

- 1

Full-suspension chassis with progressive trail geometry
- 2

Long-travel air fork and linkage-driven rear shock
- 3

Wide-range 1x drivetrain for steep and technical terrain
- 4

Hydraulic disc brakes and aggressive tubeless-ready tires

KOHPER PERFORMANCE

TECHNICAL SPECIFICATIONS

FRAME	Carbon-composite full-suspension concept
TRAVEL	140 mm front / 130 mm rear
DRIVETRAIN	1x12 wide-range concept system
BRAKES	4-piston hydraulic disc concept
WHEELS	29 x 2.40 in trail tires
CONCEPT WEIGHT	Approx. 13.9 kg

COMPATIBILITY / FITMENT

All-mountain concept for experienced trail use. Frame sizing, suspension setup, rotor size, tire clearance, and component ratings require engineering and rider-fit validation.

MOCKUP SPECIFICATION — values are preliminary concept targets. Final dimensions, weights, materials, compliance, and compatibility require engineering validation.
